"THE WAR NOTE OF LOCHIEL"

ONE OF THE FIRST CANADIAN REGIMENTS to reach full fighting strength after the declaration of war was the Queen's Own Cameron Highlanders of Winnipeg, commanded by Lt.-Col. Hugh McKenzie. Pictures on this page show members of the regiment, some still in "civvies," training at Minto barracks. Other Cameron regiments are in the British army and at Ottawa

NAVY GUARDS THE FLEET THAT HELPS FEED BRITAIN

BRITAIN'S FISHER FOLK, whose stubborn disregard for danger on the fishing grounds during the last war helped keep the nation well fed despite the submarine blockade, are now being protected by navy patrol ships. Above: A fishing fleet returns

to port after a day's trawling. Left, below: Sailors of a British cruiser manning a light gun during manoeuvres. Right, below: A net-load of Britain's favorite breakfast—herrings—being hauled aboard a trawler "somewhere in the North Sea"

BRITAIN'S WOMEN "CARRY ON" AT HOME

WAR MUST WAIT—when it's teatime on the home front. Members of the London county council's auxiliary ambulance service (above) having answered a practice "emergency call," relax with teacups on a pile of sandbags. Below are two well-known women

who are helping the cause. Left is Pam Barton, the noted galfer, whose "driving" is now done behind the wheel of an ambulance, and right, the princess royal, Countess of Harewood, inspecting officers in training at the auxiliary territorial service headquarters

HIGHLIGHTS AND HEADLIGHTS

NEWEST ENTRY in the lowest-priced automobile field is the Hudson six. The re-designed front end, common to all Hudson models, featuring massive horizontal grilles and clean lines, is illustrated above. At right are a trio of "Marquettes," whose dancing will be a gay part of the mezzanine floor show at the Automotive Building for the next two weeks

SEALED-BEAM HEADLIGHTS, claimed to give 50 per cent. more light, are standard on many makes of car for 1940. Above is

shown the unusual headlight design on the low-weight, graceful Studebaker Champion, now in its second year of production

"THEY SHALL NOT PASS" SAY SWISS

WITH WAR AT HER DOOR, traditionally neutral Switzerland fears that her territory might be used by Germans as a "short cut" to France, and the frontiers are constantly watched. Switzerland's two defences are the towering Alps (above), and her instantly available army. Every Swiss from 18 to 60 keeps his arms and equipment ready at home, like the peasant Below,

Tell Me--

why do I get all these dry skin troubles?

HERE IS WHY !

Whipping wind and fickle temperature get ahead of Nature's ability to provide your skin with adequate nourishment.

Dry, artificially heated indoor air draws the natural secretions from your skin faster than your glands can replace them.

AND HERE'S WHAT DERMATOLOGISTS DO ABOUT IT!

Dermatologists (skin specialists) depend on a substance known as Eucerite. This amazing substance, which is almost the exact duplicate of the natural skin nourishment, is the active principle of NIVEA CREME. When you apply NIVEA CREME, this substance penetrates deep into the pores—and a remarkable thing happens. The roughening effects of exposure to changeable weather are offset at once. Quickly your coarsened skin is softened and the natural loveliness of healthy skin is restored. Use Nivea as your cream for every purpose—and make a happy discovery.

NIVEA CREME can be obtained in metal containers, tubes and oint jars—at your druggist's.

—Mrs. M. F. F. Delacourte, (Address on request)

IT'S A FACT: "With $\frac{1}{2}$ oz. Princess Flakes (costing less than $\frac{1}{4}$ of a cent) I washed beautifully:

1 craps-de-chine nightgown 1 oz. wool tennis socks (loosely soiled)
1 pc. set toilet and face powder 1 face and chiffon transpire
1 printed diamond silk scarf 2 pc. craps-de-chine and face powder

And from now on Princess saves my money, my clothes and my hands."

FACT No. 2

Princess is safe for your hands for woodlens and any fine laundry, because by itself it's all pure soap, no harmful fillers or alkalis.

FACT No. 3

Because Princess is all pure soap it goes farther. That's why it's economical for dishes. It gives lots of suds quickly too.

There is only one Tangee. Accept no substitute. Insist on Tangee. On occasion you may prefer a more vivid color, then use Tangee Theatrical . . . and Tangee Theatrical Rouge to match.

Like a magician waving his wand, Tangee gives your lips natural, alluring loveliness. Apply it once or twice—watch how it changes color from orange in the stick to a luscious shade that flatters your own natural beauty. For Tangee is no ordinary lipstick. No need to fear that "painted look" that everyone hates. Tangee can't paint. It isn't paint! Let this magic lipstick give your lips the natural youthful color that is individually your own. Permanent, too, Tangee won't rub off and its cream base soothes and softens.

Tangee Rouge (Creme or Compact) gives your cheeks a natural glow. Tangee Face Powder brings a warm undertone to your skin. Ends that powdered look.

**100 HORSEPOWER
ELEGANCE
— AT A LOWER PRICE!**

ELEGANT (GRACEFUL, TASTEFUL, REFINED) so says the Oxford Dictionary . . . and ELEGANT is the word for the 1940 DeSoto

GRACEFUL lines sweep from the forward thrust of the rounded nose to the swelling curves of the rear deck that conceals the roomy luggage compartment.

Graceful are the sweep of the fender lines, the generous curves of the side panels, the lines of the larger, lower windows and the blending of the curved rear windows into the curve of the rear body lines.

TASTEFUL are the decorations of the interior. Seal-brown walnut finish on door mouldings and the plain, richly rounded instrument panel. Upholstery on the chair-height seats is of a rich, quiet shade and tastefully embossed and sewn. The whole effect of the interior is refined and luxurious.

SPACIOUS are the interiors in the new wider body and wider are the rear doors with straight sides. Thank the DeSoto engineers for cleverly lowering the whole body and making it

steadier on the turns without lessening the road clearance and for giving you 122-inch wheelbase without making the car longer.

RELAX in that zone of least up-and-down motion well forward of the rear axle and enjoy DeSoto's 1940 Airflow Glide. It's a completely new automobile yet we can recite you a long list of tried and true features like Equal-pressure Hydraulic Brakes, Floating Power engine mountings, X-type girder truss frame, aluminum alloy pistons with four rings, Handy-Control Gearshift, "Safety Signal" Speedometer . . . all of which prove that this completely NEW DeSoto is a worthy heir to DeSoto fame.

STEINMETZ. THE IMMORTAL REFUGEE

CHARLES STEINMETZ was an "undesirable citizen." Hounded out of his native Germany for daring to hold advanced political opinions, he sought refuge in America 40 years ago, became the electrical wizard of his age. HIS HOBBY WAS COLLECTING BUTTERFLIES. Friends in all parts of the world sought rare specimens, and Steinmetz spent happy hours mounting them

ABOUT GIVING YOUR CHILD UNKNOWN REMEDIES

Take no chances
with your child's health
to save a few pennies

Be sure to ask the one man who really knows
Before you give your child a doubtful "bargain" remedy . . .
any medicine you are not absolutely sure about—ask your doctor

Have your physician "check up" your family frequently. His scientific training may safeguard against serious illness.

give it this way. Each tablet contains the equivalent of one teaspoonful of the liquid Phillips' and a big box costs only 25c at your druggist.

The small bottle of Liquid Phillips' costs but a quarter, too, so take no chances on an unknown preparation. Get the genuine Phillips' by asking for it by its full name "Phillips' Milk of Magnesia."

What the Name "Phillips'" Means
Ask your doctor even about the common children's remedy, milk of magnesia. And when he says, "Phillips' Milk of Magnesia," see that you get real "Phillips'" when you buy.

Your doctor has long known Phillips'—and knows its marvelous gentle action is especially suitable for the delicate system of children.

If your child prefers Phillips' in the newer form, tiny peppermint-flavored tablets scarcely larger than an aspirin tablet—that children chew like candy,

SAFEST WAY TO GET RID OF YOUR HEADACHE

Acts in a Few Minutes

Do this at once: Take 2 Aspirin Tablets with a glass of water. Fast relief will change your whole day.

Take no chances with strong drugs.. Aspirin starts "taking hold" almost instantly

Here is a faster way to relieve headaches and other common pains... the fastest way you can use safely at home. Ask your own doctor about it. If he says "to get rid of pain promptly, use ASPIRIN, see that you get it."

ASPIRIN acts amazingly fast, because it is made to disintegrate and begin to dissolve almost as soon as you take it... within 2 seconds after touching moisture. Hence is ready to go to work at once. Relief for even a bad neuritic or rheumatic pain often begins in a few minutes.

And it's safe relief... Even in frequent doses, it does not upset the system. And ASPIRIN does not harm the heart.

Don't take chances with your own or your family's welfare. When you ask for ASPIRIN accept no substitute. It is made in Canada and Aspirin is the trade-mark of the Bayer Company, Limited.

A **FREE NATION** only 21 years, Esthonia struggled against serfdom under Germany for 600 years, under Czarist Russia for a century. Above is Tallinn, the capital, an ancient city surrounded by a wall

AGRICULTURE IN ESTHONIA is still extremely primitive. The peasant above has just caught a hive of bees. In his mouth he holds a crude "fumigator"

ESTHONIAN SOLDIERS drove the Bolshevik forces out of the country 20 years ago, and ever since have maintained a strict guard on their Russian frontier

Avoid Dry Scalp and have

Soft, silken, natural-looking hair adds immeasurably to personality and charm—but you simply cannot have lovely hair and DRY SCALP too. Dry Scalp is common in Canada with our dry winds, bright sunshine, extremes of heat and cold. Hair loses some of its natural oil, becomes brittle, unmanageable, dull.

"Vaseline" Hair Tonic is the dressing that ends dry scalp. Easy to use, contains no alcohol. Before shampooing your hair, or having it shampooed at your hairdresser, part the hair and sprinkle a few drops of "Vaseline" Hair Tonic right onto the scalp and massage briskly with the fingertips. The massaging alone, stimulates the flow of natural oils.

But the tonic supplements these natural oils, leaves the scalp soft and pliable and the hair beautiful. Try this economical treatment and see how it helps keep your hair as you want it—lustrous, lively, natural. Made by Chesebrough Manufacturing Co., Cons. 4, 5520 Chabot Ave., Montreal.

A few drops vigorously massage the natural scalp oils, keep your hair manageable and good-looking.

"Three times the quantity in the larger bottle."

Let "Buzum-Hi"

WITH BACK-LACE ADJUSTMENT

Give You the New Wasp Waist

This Season "just any" Foundation won't do. You must have expert corseting to acquire the slim waist and rounded hips that the new styles demand.

Gossard's "Buzum-Hi" Girdle, shown above, with its artfully boned high cut, its back-lace adjustment, is just the garment you need to comfortably mold your figure to these new lines. Fashioned of fine patterned batiste and matching elastic batiste to provide smoothness fore and aft. Lightning fastener closure. Bandeau Bra to match.

A "NEUTRAL ZONE" of 300 miles stretching off the coasts of the American continents was proposed at the inter-American neutrality conference at Panama City. Belligerents would be forbidden to operate in this area. It is believed safety of the Panama canal (above) was one of the plan's aims

UNITED STATES SOLDIERS, who guard the Panama canal, are shown above testing a machine-gun under service conditions in the dense tropic jungle

PART OF THE EQUIPMENT of the army in Panama is the "machete," a long-bladed knife needed for cutting paths in the bush. Note also mosquito net

rescue at sea

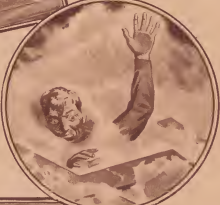

CLARENCE LETTENY,
Yarmouth, Nova Scotia

I was one of a crew of seven', writes Clarence Letteney of Yarmouth, Nova Scotia, on the ship 'Accuracy', carrying lumber from Apple River, N.S., to Boston.

'A few hours out in the Bay of Fundy, our ship ran into a gale. The skipper sent me out on deck to tighten the chains around the lumber. A great wave broke completely over us and almost lay the ship on her beam ends.'

'The next thing I knew, I was swept off the deck on a pile of lumber and into the sea. I came up and fought to keep afloat. The night was pitch dark. I knew there was no chance the men on deck could find me.'

'Then I saw a beam of light. It swept the water and finally shone on me. Someone threw a rope. I grabbed it and was pulled aboard. But for that light, I'd never have been located. The first person I thanked was the fellow that held the flashlight. It had been loaded with fresh "Eveready" batteries and its beam looked as big as a liner's searchlight to me.'

Clarence Letteney

Don't load your flashlight with shelf-stale batteries. They might let you down just when you need light most. It is so easy to be sure you are buying fresh batteries, with their full life ahead of them... just look for the date-line. This is printed clearly on the jacket of every fresh, dated "Eveready" flashlight battery. Remember—the date-line may be your life-line.

WIVES ARE WAGES IN MOI

BEFORE THE YOUNG BUCK of the Moi tribe, Indo-China (above), can become a family man like his fellow-tribesman (at right) he must "work his way up to matrimony," by laboring in his prospective father-in-law's fields until his "back wages" amount to a sufficient sum to buy the bride

THE MOIS LIVE in houses built high on pillars and covered with "knife blade" roofs. A curious custom is "judgment by ordeal," in which the prisoner and his accuser dive into water, and the one who stays under longest is deemed to have justice on his side

Relieve "Stomach Upsets" Quick ANDREWS Way!

MANY common upsets for which we blame our bowels and stomachs — indigestion, fullness after eating, bad breath, dulled appetite — may be largely traced to *Faulty Elimination*. Not just the bowels alone, but the whole eliminative process has become sluggish. Several organs need aid. So

there's little hope of fast relief from laxatives, which work only in the bowels. For quick and more thorough comfort, take **ANDREWS' Liver Salt**. This pleasant-tasting, effervescent medicine actually does *four things* to help the entire eliminative tract, thus giving relief in shorter time.

- 1 ANDREWS opens the bowels for normal movements.
- 2 Stimulates the liver, very often sluggish.
- 3 Helps the kidneys by reducing the amount of work they have to do.
- 4 Neutralizes excess gastric acid, speeding relief.

People who use **ANDREWS** regularly, know it can be depended on for farther-reaching, four-way relief. You'll like it, too! All drugstores. Four-oz. tin, 34c; 8-oz. tin, 56c; 10-oz. bottle, 69c.

The bones
are so soft
they're easy
to spoil...

The "bones" of a baby's foot are merely soft bony masses. The slightest shoe-defect can spoil the precise bone-structure which is just beginning to take shape. Why risk those precious feet? Hurlbut shoes are copied from Nature—they give a balanced tread that gently exercises the growing foot. There are no unnecessary supports to weaken normal muscles. There's room for each bone—guidance for the alignment of the foot. Be sure to buy the genuine Hurlbut Pussy-Foot shoes. They are stamped with the famous crest shown below.
